## CMIT Solutions

This proactive management system notifies us when devices in your network experience an issue, backs up your data safely and securely, and prevents cybersecurity problems before they affect your business. We worry about IT so you can focus on growing your law firm. We realize there are law firms that are moving their workforce to a remote environment and want them to be secure. Unfortunately the hackers will likely take advantage of this situation and cyberattacks will be on the rise - **usually 10% off for CMBA Members, now 20% off for the time being.**
